

KEY HOLDING & ALARM RESPONSE

NATIONWIDE

Midland Security Response Division will uniquely tailor our service to your company's individual requirements. This can be a combination of keyholding and alarm response to your premises, opening and closing your building or the provision of mobile internal / external patrols at a frequency which gives you maximum returns in terms of risk reductions.

Midland Security will take the worry of potential health and safety risks away from you and your employees. Our Keyholding, Alarm Response and Mobile Patrol service are NSAI Certified. Our Control and Response division operates 24 hours a day, 7 days a week. The control centre and response personnel are both PSA and NSAI – I.S. 999:2004 compliant.

Midland Security has been awarded the IS 999 Standard by the NSAI and are fully PSA Licensed.
